WELCOME

ARKANSAS
NEUROSCIENCE
INSTITUTE

To my esteemed colleagues,
and members of the Neurosurgery Community:

The Arkansas Neuroscience Institute (ANI) is gearing up for our 4th Annual ANI Live Microneurosurgery Course, happening this April 12-16, 2026.

Building on the incredible success of the previous courses, where we saw participation from close to 250 neurosurgeons from around the world, this year promises to be even bigger.

Our course is more than just another educational experience, it's a homecoming for our mentors, previous fellows, and all neurosurgeons who have impacted or were impacted by the Little Rock school of Microneurosurgery Educational program. It is here that we celebrate the minds that have shaped, and continue to shape, the future of neurosurgery.

Welcome to the meeting of the minds. Welcome to your home.

Ali Krisht, M.D.

Ossama Al-Mefty, M.D.
